EGG HANDLING INNOVATIONS

Tray
300x300 mm/145 gr

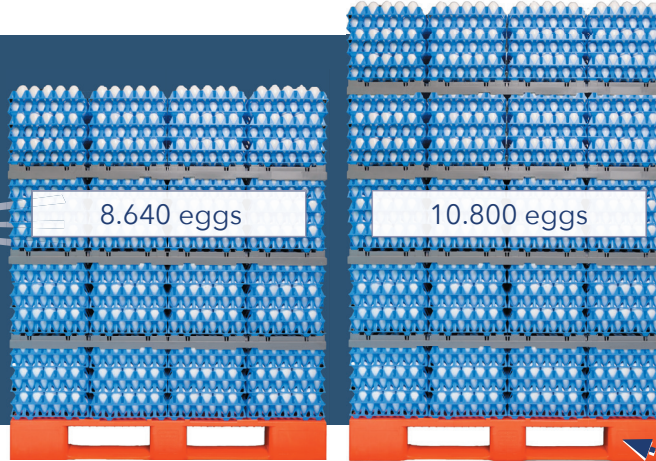

Divider
1200x900 mm/3.75 kg

Pallet
1200x900x160 mm/17.2 kg

Egg sanitisation possible directly after packing.

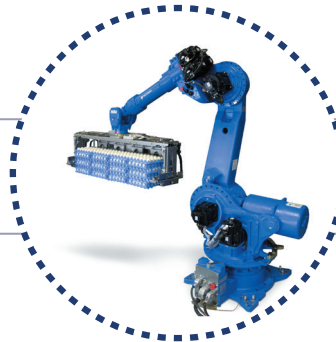

Very stable reducing crack to a minimum.

More eggs per Truck.

Tracking and tracing.

Farm and Hatchery Automation.
Easy and quick tray to tray transfer.

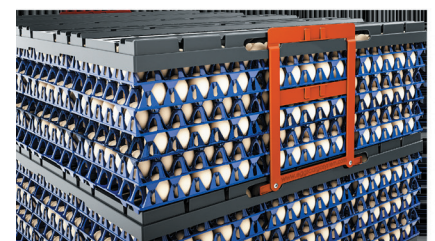

WASHING AND DISINFECTING FOR PERFECT HYGIENE AND REDUCTION OF CONTAMINATION

To improve bio-security we can add a bio-cide to our raw materials reducing pathogenic contamination to a minimum.

To prevent the top stacks from bouncing - which can cause crack - we developed the EC Protector.

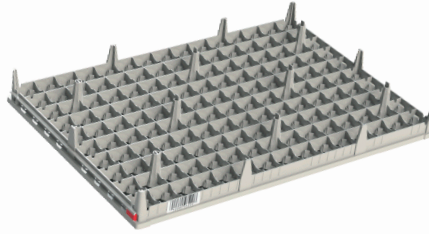

MAXIMUM EGG PROTECTION

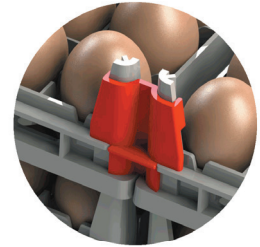

Pallet

1030x755x160 mm/10.7 kg

Tray

735x507 mm/1.75 kg

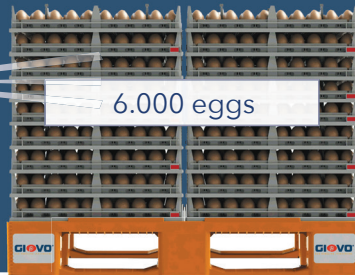

Clip

18 gram

Egg sanitation possible directly after packing.

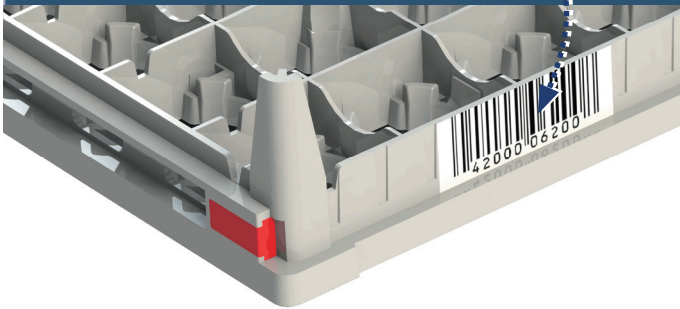

40% more eggs per truck.

Very stable reducing crack to a minimum.
