

THE NEXT GENERATION EGG TRAY

The EggsCargoSystem® 2.0 Jumbo Egg Tray

Over the last few years, the genetics of layers changed. The laying period substantial increased and will increase even further. Mainly with free range and organic eggs, it results in eggs becoming larger.

To ensure our EggsCargo® Trays maintain to bring maximum comfort and protection to the eggs, we have developed a new generation tray.

The Jumbo 2.0

This Jumbo 2.0 tray is suitable to pack middle-sized eggs as well as XL eggs with a weight up to 90 gram. Due to the unique design in combination with the very best HDPE raw materials available, this Jumbo 2.0 tray is extremely durable.

Naturally, the Jumbo 2.0 is compatible with the EggsCargo pallet and divider.
